

## AA30TRNPREMIER

This turnstile combines elegance with the ultimate in security. It complements and enhances many corporate environments that need to combine protection with aesthetics.

This turnstile can also be fitted with a stylish drop arm as it offers completely free and unhindered exit in an emergency situation, as the battery power pack (which can be either built into the turnstile unit or situated remotely) unlocks the arm from the horizontal position and drops the arm down to a vertical position.

The added benefit to this turnstile is the automatic reset once the arm has been dropped, as the mechanism rotates on itself and then drops the arm back into position.
